OBJECTIVE

I'm Pavel Hasan Joy, a Computer Science & Engineering undergraduate with a clear goal - to become a skilled Full-Stack Software Engineer with a strong focus on frontend & backend development And an Ai Engineer.

SUMMARY

Dynamic Aspiring Full-Stack Software Engineer & ML/AI Engineer with a strong academic foundation in Computer Science & Engineering at ULAB. Proven track record of engineering impactful software, including a 3D NASA Space Apps climate observatory and a university-wide networking portal. Skilled in C, C++, Java, Git, and GitHub. Known for rigorous problem-solving and the ability to build resilient, scalable systems from first principles.

EDUCATION

HSC in Science — Naogaon Govt. College, Naogaon, Rajshahi, Bangladesh **2023 – 2024**
GPA: 4.50

SSC in Science — Tapir Bari Ansar High School - Gazipur, Dhaka, Bangladesh **2021 – 2022**
GPA: 5.00

PROJECTS

ULAB Setu — University-Wide Networking Portal github.com/pavel-hasan-joy
Developed a centralized university networking and community portal designed to connect ULAB students, faculty, and alumni on a unified platform. Engineered features to streamline academic collaboration, campus-wide communication, and peer resource sharing.

Climate Lens — 3D NASA Space Apps Climate Observatory github.com/pavel-hasan-joy
Built an interactive 3D climate observatory web application for the NASA Space Apps Challenge to visualize and analyze global environmental datasets. Designed an intuitive interface that delivers real-time spatial insights into climate patterns and ecological changes.

SKILLS

Computer Skills	C programming Language, C++, Java, Git and GitHub
Languages	Bangla, English, Hindi
Professional Skills	Problem Solving, Object-Oriented Programming, Data Structures and Algorithms
Soft Skills	Teamwork & Collaboration, Effective Communication, Time Management & Prioritization, Adaptability & Fast learner

CERTIFICATIONS

Introduction to AI and Machine Learning on Google Cloud
NetCom Learning

ACHIEVEMENTS

- **Hackathon - ULAB Computer Programming Club (15-08-2026)**
  Secured 4th position. For the hackathon, we built Campus Safety a simple web platform to help students during emergencies.
